

Snow Falls Around Me

The winter snow
Falls around me,
So quietly
In ev'nings glow.

I see you there,
In falling leaves,
On autumn eves
We use to share.

I see you in
The summer sun,
When we were one,
But that was then.

I see your face,
Life's tangled loom,
Where flowers bloom,
In our spring space.

The snowflakes fall,
The night descends,
Our story ends,
I saw it all.
